

## How to make a music video

<h1>HOW TO MAKE A MUSIC VIDEO</h1>	Steps in order of difficulty	Individual work	Team work
<p>1. Choose the right song. Make sure your song will be an inspiration for your fans and will represent your band style.</p>			
<p>2. Develop the concept. Your band should determine what you want to tell your fans, what your MESSAGE is.</p>			
<p>3. Study videos for inspiration. Before you start the planning process, look up for some videos and determine what worked and didn't.</p>			
<p>4. Consider your budget. Consider what you need to record your video.</p>			
<p>5. Cast the crew and choose the equipment. To record your music video you will need the following roles: a cameraperson, actors, band performers and a director.</p>			
<p>6. Plan the music storyboard. Build a storyboard considering shot-by-shot sketches.</p>			
<p>7. Find a good location. Decide where you want to film your music video. If you consider multiple locations, visit each of them ahead of time.</p>			
<p>8. Start the Filming. Once you have your storyboard, start the shooting process.</p>			
<p>9. Use the right editing software. This is the post-production phase. Transfer your shoots to a computer and start editing with a software program you are familiar with.</p>			
<p>10. Use the music. Be sure to listen to the song and incorporate it into your video to make sure it syncs up with every shot.</p>
