

Look, think and write

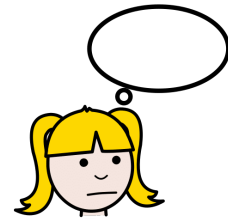

1. Look at these images about different jobs

2. Choose one picture and think about it

- What can you see in the picture?
- What do you think about the picture?
- What questions can I ask about it?

3. Observe the three pictures again and answer

- What profession do you like the most?
- Why do you like this profession?
- Why is it important to people?
- Do you think robots can do it in the future?
