Material Change is an equal opportunity employer.

Renewable Energy Consultant

A position has arisen at Material Change for a Renewable Energy Consultant to join our existing team. The role will include carrying out energy surveys and advising clients on sources of renewable energy. Other responsibilities will include undertaking field visits to evaluate and implement systems that reduce the carbon footprint.

The ideal candidate needs a **bachelor's degree in Renewable Energy Management** but doesn't need prior work experience. Basic computer knowledge is required. Candidates must be motivated and show initiative, be flexible and be team oriented.
